Latrobe College of Art and Design is an independent tertiary college specialising in contemporary visual art and graphic design to diploma and advanced diploma level.

Established since 1995, the college is located in the heart of the arts hub precinct of Melbourne and is renowned for its notable teaching staff, tutorial focused small class sizes and individual attention to student development.

The courses offered are contemporary, innovative and provide a balance in skills based training with creative direction. It provides students with the opportunity to develop techniques, but also seeks to set the benchmark for innovation and creative difference in an inspirational and supportive environment. Opportunities are available for students to complete units in the course in New York and Venice as well as to exhibit their work in the college gallery.

The continual success of its alumni, who are regularly holding exhibitions and winning awards for their work, achieving acceptance into key institutions for further study, employed in their chosen design fields or teaching, is testament to the vitality and relevance of the college programs and its teaching staff.

Vet-Fee-help is available.
