## INTERIOR DESIGN

Interior Design

The Diploma of Interior Design and Decoration is a practical hands-on course provides the skills and knowledge to design and document interiors for residential and commercial buildings in the building and construction industry. The course is structured to simulate workplace environments and industry expectations, covering a range of techniques including colour and fabric selection, residential construction methods, 2D and 3D modelling, and graphic presentation.

The Advanced Diploma of Graphic Design is aimed and structured to build up skills and experiences in a number of communication design areas, including advertising, packaging, branding, illustration and web design.

The program provides students with the knowledge and real world skills necessary for the creation and final implementation of graphic work. Well-developed links with industry and businesses exist and this enables students to participate on internships or short placements.
