In 2014 Whitehouse Institute of Design, Australia added the Master of Design to its acclaimed Bachelor of Design programs. The Institute specialises in teaching design at its centrally located campuses in Sydney and Melbourne. Students study cultural aspects of design combined with studio based practice to develop the knowledge, skills and attitudes required to be successful designers.

From research and concept development to sketching and design, students receive interdisciplinary instruction to help them embark on careers within the creative industries. Students are equipped with the confidence to critique existing industry practices and to provide innovative, cost-effective and environmentally responsible solutions.
