"I am moved by words, sound and vision. I want my creative skill and technical precision to move others."

Did someone say media savvy? You've come to the right place.

UNSW Arts & Social Sciences is a lively community of adventurous scholars and students exploring big ideas. Our academics are leaders in their fields, creating new knowledge and new forms of understanding. We are boldly creative and intellectually adventurous, combining time-tested traditions of scholarship with progressive new ways of thinking to tackle age-old questions, inform social change and enrich public debate.

UNSW helps you find new ways to tap into your creative potential. Our dynamic programs invite you to create links across disciplines, and to combine intellectual exploration with practical experimentation.

We are one of the most academically energetic and socially engaged faculties of our kind in the Southern Hemisphere, and a national leader in the Humanities, Social Sciences and Creative and Performing Arts. Our scholarship deepens understanding of the diversity of human experience and challenges traditional ways of thinking about the world. By applying this new knowledge to some of the most urgent challenges of our time, our research makes a significant contribution to public debate and the formation of effective policy. Our researchers and our graduates are not afraid to get their hands dirty as they engage with the complexities of contemporary society.
